<sup>1</sup> An Internet subscriber is defined as a fixed service that has been installed and is operational at the customer premise, which includes dwelling units (households) or businesses.

<sup>2</sup> In Q1 2025, Bell adjusted its high-speed internet subscriber base, removing 80,666 subscribers from brands that had discontinued selling these services.

<sup>3</sup> In Q1 2025, Bell adjusted its high-speed subscriber base to remove 2,783 subscribers following a review of customer accounts.

<sup>4</sup> In April 2025, Rogers added 124,000 retail Internet subscribers to its subscriber base to reflect the end of its migration of legacy Fido Internet plans that were previously removed when it stopped selling new plans for this service.

<sup>5</sup> SaskTel reports on a fiscal calendar beginning April 1, ending March 31

<sup>6</sup> SaskTel did not disclose its total number of customer connections in its latest annual report. This figure was estimated by adding the 2023-24 net additions to the last total reported in CTA subscriber counts. Note that SaskTel's fiscal year differs from CTA's, so net additions may not align exactly.

<sup>7</sup> On January 1 2025, Telus removed 66,000 subscribers from its internet subscriber base.

<sup>8</sup> Cogeco reports on a fiscal calendar beginning September 1, ending February 31

<sup>9</sup> Vidéotron did not release net additions for its Q1 results. Net additions for these carriers have been calculated by the Association.
