¹ An Internet subscriber is defined as a fixed service that has been installed and is operational at the customer premise, which includes dwelling units (households) or businesses.

² On January 1, 2026, Bell updated its Internet subscriber metrics to include wholesale subscribers. As a result, previously reported subscribers at the end of Q4 2025 have been restated for comparability.

³ In Q1 2026, Bell removed 181,086 Virgin Plus Internet subscribers, as it stopped selling new plans for this service in Ontario as of January 14, 2026.

⁴ SaskTel reports on a fiscal calendar beginning April 1, ending March 31

⁵ SaskTel previously omitted its consolidated broadband metrics from its 2025-26 Annual Report, requiring Q1 2026 (SaskTel's fiscal Q4) and full-year totals to be estimated using Q4 2025 figures. Following the release of SaskTel's Q1 2026-27 report, the actual metrics for the period ending March 2026 have been re-added, and all relevant total subscriber and net addition calculations have been updated accordingly.

⁶ In January 2026, Telus removed 30,000 Internet subscribers from its base.

⁷ Cogeco reports on a fiscal calendar beginning September 1, ending February 28.

⁸ Videotron did not report Net Additions for Q1 2026. As a result, net additions have been calculated by the Association

⁹ SaskTel resumed reporting consolidated broadband metrics in its Q1 2026-27 report; data for the period ending March 2026 has been re-added, and full-year net additions calculations have been updated accordingly.
